

# AstroGel ND

## *New Design Fluid Seal Grid System*

- *innovative Design*
- *Simplified installation*
- *Maximum flexibility*
- *Unique gel sealant*

### **Application**

The AAF AstroGel ND fluid grid system, is the latest generation of ceiling grid systems for cleanrooms.

The newly designed profiles give the advantage of reduced turbulence, light in weight, easier and fast installation, flexibility and improved aesthetics.

AAF AstroGel ND meets all critical requirements in modern cleanroom technology in the electronics and semi conductor industry.

### **The product**

The AstroGel ND grid system is a modular design of extruded aluminium profiles and

accessories enabling a fast and easy installation at site, offering a substantial reduction in installation time whereby a minimum of tools is required.

Special designed joining pieces and other accessories, making electrical conduits, sprinkler systems and smoke detectors an integrated part of the ceiling grid, guarantee a leakfree ceiling system without mastic sealants at the joints.

AAF AstroGel ND offers a minimum of installation time and a maximum of flexibility. The standard color is glossy white.

### **Sealant**

Combined with the unique features of a unique gel sealant, AAF AstroGel ND is the most advanced ceiling grid system available today.

Protopet sealants can also be used as alternative when required.

### **Accessories**

Penetration points for sprinklers, electrical conduits, smoke detectors etc., are located in every joining piece giving maximum flexibility in cleanroom design.
